Clegg, assistant foreman, and others.

**CARRIAGES.**

Carriages carrying Aldermen, Supervisors, members of the Legislature, and other county and municipal dignitaries, and other citizens.

**CHARLES T. HARRIS.**

The parade started at 10 o'clock, only fifteen minutes later than the time scheduled. At the different organizations moved into line were greeted with cheers from the crowds that lined the streets.

When the public school division was formed it was immediately demonstrated that the

boys were the feature of the parade in the estimation of the spectators.

It was estimated that there were 10,000 or more boys in the line, and a salvo after salvo of applause marked their appearance all along the line.

It seemed to the spectators that the massing of the procession would be even more interesting than the procession itself, and, as a result, every street was the favorite place for the spectators, and was as crowded as Broadway ten days ago.

The buildings were buried in flags, and lighting, which in turn were almost lost in view behind the mass of people in front of them.

Every one, including policemen, were to stand at arms, and the children, the women and children, they presented an almost unbroken line from one street corner to another.

They had nearly all the girls, until the old veterans of '61-'65 came along in as tasteful a manner as in "Marching through Georgia."

The coaches containing the Board of Supervisors and their dignitaries received a grand ovation, and the press corps of all kinds, old, white officers, were beyond comparison.

They had nearly all the girls, until the old veterans of '61-'65 came along in as tasteful a manner as in "Marching through Georgia."
